Hon. Wm. F. Fry has been re-nominated for United States senator by the Maine republicans to succeed himself.

And still Mr. Cleveland keeps on talking about his downfall. Mr. Cleveland should learn by this time that he is the architect of his own defeat.

It will cause the democratic heart very much pain to hear that Mr. Blaine has taken a house in Washington for the winter. It is possible he may leave it for four years. This, indeed, would make the democracy sick.

There are some newspapers that think General Harrison doesn't know as much about cabinet making as they do. But in the course of a few weeks they will learn that there is one who can make a cabinet they know nothing of.

Mr. Roger O. Spooner, of Malison, will be sergeant-at-arms of the assembly, there being no organized opposition to him. Mr. E. J. Coo will be chief clerk of the assembly, and there does not seem to be any objection to Charles E. Cross as chief clerk of the senate.

An item which shows that Governor Hoard will not be a milk-and-water man during his term of office—taken from the State Journal: Governor Hoard brought with him from Fort Atkinson, to-day, two hundred me Jersey cows, which will be stabled in the barn on the executive grounds and furnish rich milk for the use of the incoming gubernatorial household.

The New Year greeting which the New York Times sends Governor Hall, sounds quite funny: "It is an astounding person in his way, but the wonder is that such a narrow and shallow triester should have got to his present elevation. That he should ever get higher is inconceivable." And yet Governor Hall and all that there's in him, is the creation of the Mugwump Times. It is too bad for the Times to go back on its own progeny.

During 1888, according to the annual review of the Manufacturers' Record, 3,618 new mining and manufacturing enterprises were organized in the south, with an aggregate capital of \$168,000,000. This enumeration does not include hundreds of small enterprises, such as grist mills, saws, etc. The value of the cotton goods made in the south during the year is estimated to be nearly \$50,000,000. These figures serve as a chilling rebuke to the democratic theory that protection is a curse to the south. The south never did prosper under free trade, but it has grown marvelously under protection.

The total number of failures in 1888 was 10,587 as against 9,740 in 1887, 10,568 in 1886, 11,116 in 1885, 11,620 in 1884, 10,299 in 1883; 7,635 in 1882, and 5,225 in 1881. The general liabilities of the failures for 1888 amounted to \$120,292,402, against \$130,065,000 for 1887. The total assets of these failures for 1888 were \$61,599,911, while for 1887 they were \$64,661,000. Of the eight years 1884, shows the greatest general liabilities, \$76,549,000, and 1881 the least, \$76,094,000. The typographical distribution of the failures for 1888 is as follows: Eastern states—1,372 in number; general liabilities, \$12,523,601; actual assets, \$5,100,326. Middle states—2,361; general liabilities, \$37,411,764; actual assets, \$18,419,551. Southern states—2,098; general liabilities, \$9,436,904; assets, \$1,546,945. Western states—3,393; general liabilities, \$39,480,079; assets, \$21,314,974. Pacific states—816; general liabilities, \$9,361,431; assets, \$5,297,764. Territories—314; general liabilities, \$2,288,548; assets, \$700,241. Canada and the province had 1,750 failures, with general liabilities of \$15,498,232, and actual assets of \$7,178,744. New York state had 1,149 failures in 1888, with general liabilities of \$27,367,000, and actual assets of \$10,749,000. The record for the state for 1887 was 1,056 failures, with \$24,714,000 of general liabilities and \$12,285,000 of assets.

The venerable Fred Douglass, as a representative of the colored race, spoke at a celebration of the twenty-fifth anniversary of emancipation at Philadelphia Wednesday night. Referring to the present negro question in the south, he said:

The question is whether the American people have virtue enough to adjust the action of the nation to the fundamental principles of the Declaration of Independence and the constitution of the United States. Mr. Douglass said that every confederate to exist in the south. The negro laborer worked on the plantation for \$3 a month and was paid in orders for stores and the prices charged were double. In concluding his speech Mr. Douglass said: "Give the negro fair play and let him alone. He lives, well; if he dies, equally well."

One of the most difficult problems to settle so far as the negroes of the south are concerned, is that of work and wages. Their political condition is bad enough, with but little hope that it will be improved, but the question of work and wages is of still more vital importance to the blacks, because this directly and forcibly effects their pocket books and their home. But there is no hope at the present out-look, that the negro will ever get fair play in the south. His right of suffrage is worth nothing to him because not one-quarter of the negro

vote is cast, and when it is cast, it is not honestly counted. The spirit of the declaration of independence does not exist in the south, and never will, in all probability, so far as it touches the black man. It is more than likely that the democratic party will always remain in authority in the south, and so long as that unfortunate thing exists, the outlook for the negro will be anything but encouraging.

There is an impression in Washington that Senator Spooner can have a cabinet office if he wants one. A dispatch from Washington says that General Harrison took a liking to Spooner when the latter came to the senate in 1885, and that it was natural to suppose that this liking would be increased by Senator Spooner's share in swinging the Badger state delegation at Chicago to Harrison. The senator has been to Indianapolis twice to urge the claims of Payne for the post office department. Rusk for the war office, according to the president-elect might select, but the belief is almost universal that the only chance Wisconsin has for a chance in the cabinet is to unite on one man without specifying any position. Senator Spooner, name has been talked of among his associates for attorney general and for the interior department. Both are positions where an able lawyer has a chance to add to his legal reputation, but the department of justice is the one in which an active lawyer would find the most satisfaction. Spooner came to the senate with a reputation as an able lawyer and has taken rank as one of the best debaters in the body. His influence is growing and a cabinet position might not prove tempting. The senator himself disclaims any desire of cabinet honors for himself. "I'm trying to get Wisconsin represented in the cabinet," he said, "but it must be somebody else than myself. So far as the talk about this that man goes I believe it to be an absolute fact that General Harrison has not yet intimated to a single person that he has yet made any choice for the cabinet."

Des Moines, Ia., Jan. 4.—Governor Larabee has written a letter to Hon. A. I. Bartholomew, of Preston, Ia., the home of Chester Turner, for whose pardon pardon press has been on the Governor, saying that the people of Preston need have no fear that he will pardon Turner at present, as he has not allowed the press or people to influence him in this matter. Turner is serving a seventeen-year sentence for numerous burglaries committed in and around Preston.

A Fiendish Murder. LONDON, Jan. 4.—Wednesday, at South Perchion in Somerset, a girl ten years of age named Mary was outraged and murdered. Her mother found the girl's dead body in a ditch with the head almost severed from the trunk, and the body shockingly mutilated after the style of "Jack the Ripper" methods. The deed is supposed to have been committed by a tramp. No one has yet been arrested for the crime.

Bismarck's Health. BERLIN, Jan. 4.—Great anxiety is felt over the condition of Prince Bismarck's health. Much excitement is evinced in this city over the report that the Chancellor is worse. Five thousand telegrams of inquiry and sympathy have been received at Friedrichsruhe. The attending physicians have ordered implicit repose and rest for their patient, and he will not come to Berlin for some time.

Heavy Liabilities. NEW YORK, Jan. 4.—A receiver has been appointed for Henry Werner, wholesale dealer in hides. Mr. Werner has been in business twenty-five years, and at one time was one of the largest dealers in the "swamp." His present liabilities are reported as \$300,000, and assets \$230,000, in hides. He had branches in Germany and France, and most of the creditors reside in those countries.

Don't Want to Be Dictator. PARIS, Jan. 4.—A French politician, in an address to the electors of the department of the Seine, repudiated the assertion that he aims at a dictatorship and protests his fidelity to the Republic. He avers that France is tired of being made the victim of base competitions and only demands right and justice.

Annexation the Issue. OTTAWA, Ont., Jan. 4.—There is great interest in the majority election at Windsor, which took place Monday, it being the first instance where the question of annexation with the United States is made an open issue. Solomon White, ex-member of Parliament, gave before the people as a candidate for mayor, as an annexationist.

At His Old Tricks. TRENTON, N. J., Jan. 4.—Carl Olbe, a noted criminal was arrested here Tuesday for committing a large number of burglaries in this city and has confessed his guilt. He was released from State prison on November 8, having served a term of four years for burglary and grand larceny.

Wholesale Safe-Blowing at Logansport. LOGANSPORT, Ind., Jan. 4.—The safes in two large flouring mills and a brewery were blown open Wednesday night and papers and money were secured. The work was evidently done by expert cracksmen.

A Loss of \$50,000. HAMMOND, Ind., Jan. 4.—Fire, which originated in the oil department of the Chicago Carriage Company's works, damaged the building to the extent of \$50,000 and the stock \$20,000; partially insured.

Failure in Minneapolis. MINNEAPOLIS, Minn., Jan. 4.—The crockery firm of John W. Walrath assigned Thursday. Assets, \$40,000; liabilities about \$50,000. The principal creditors are New York and Chicago firms.

Neither Won. LONDON, Jan. 4.—Both runners played on Thursday in the Barker-Smith checker contest at Spennymoor resulted in draws.

Living Witnesses. Ask any one who has used Dr. Pierce's Pleasant Purgative Pellets as to their merits. They will tell you that pimples, blotches and eruptions disappear; that constipation—that breeder of disorders—is relieved; that the appetite is restored; that the whole system is renovated and regulated beyond any conception by these little wonder-workers. Being purely vegetable, they are perfectly harmless; being composed of concentrated, active ingredients, they are powerful! Purgative purifies the system and disease will be unknown. Of all druggists.

A CARD. All who are suffering from the errors and indiscretions of youth, who have become weak, nervous, and exhausted, and who are in need of a tonic, will care for FREE OF CHARGE. This remedy was discovered by a missionary in South America. Send a self-addressed envelope to Dr. J. C. Smith, Station D, New York City.

## TAKING THE OATH.

Several of the Newly-Elected Governors Inaugurated.

### GOV. LUCE FAVORS LOCAL OPTION.

Gov. Thayer, of Nebraska, Urges Careful Guarding of the Ballot—Illinois Legislative Predictions—Statehood Conventions Held.

MICHIGAN'S GOVERNOR TAKES HIS SEAT. LANSING, Mich., Jan. 4.—Governor Luce was inaugurated Thursday. His address was largely devoted to the needs of State institutions. He spoke of the necessity of legislation to protect the ballot and recommended the Massachusetts election laws to the consideration of the Legislature. On the temperance question, he referred to the decision of the Supreme Court declaring invalid the recently enacted Local Option law, and said:

"Believing that the sentiment of a large portion of the State is ripe and ready for it, I commend to your consideration the passage of a local-option law if one can be devised free from constitutional objections. If our constitution prohibits us from securing an efficient law for localities it does not prohibit a general prohibition law, and if we are denied other opportunities no doubt in the future this course will be resorted to."

The Legislature completed its organization and adjourned until next Tuesday. Before adjournment the Senate confirmed the following nominations by the Governor:

Railroad Commissioner, John T. Rice; State Librarian, Harriet A. Tenney; Inspector of Salt, George W. Hill; Commissioner of Mineral Statistics, Charles Lawton; Member of Board of State Public Schools, Harvey J. Hollister; Member of Board of Reform School, William A. Atwood; Inspector of State Prison, Henry S. Dean; Members of State Board of Agriculture, Oscar Palmer and Asa C. Glidden; Member of Board of Pharmacy, James Vernon; Adjutant-General, Daniel C. Adams; Quartermaster-General, Sherman B. Dabell; Inspector General, Frank D. Newberry; Commissioner of the Banking Department, George C. Sherwood.

ILLINOIS LEGISLATIVE AFFAIRS. SPRINGFIELD, Ill., Jan. 4.—The Illinois General Assembly will meet next Wednesday. Party caucuses will be held on Tuesday night, at which both parties will nominate candidates to perfect the organization of the two houses, but as the Republicans have an overwhelming majority in each branch the Democratic nominations will be a mere matter of compliance.

He generally conceded that Hon. A. C. Matthews, of Pike County, will be the Republican nominee for Speaker of the House.

The question of the Speakership practically settled, interest naturally turned to the Chief Clerkship of the House. But this may also be said to be decided in favor of John A. Reeve, of Matlock, of Springfield, who has no opposition for the office of Enrolling and Engraving Clerk. The Senate caucus may be more interesting. Captain Charles A. Stone, of Chicago, and Roger D. Sherman, of Kankakee, are the opening candidates for Sergeant-at-Arms, the best place within the gift of the Senate majority. Mr. L. E. Watson has no opposition for the position of Clerk. The row, however, if any is precipitated, will be occasioned over the election of the President pro tem. The leading candidates are General Thomas, Mr. Humphrey, Charles Fuller, Messrs. Chapman, Pierce and Matthews.

LEHMAN ELECTED SENATOR. MATTOON, Ill., Jan. 4.—Almost complete returns from the Thirty-second Senatorial district show the election of L. L. Lehman (Rep.) to the State Senate by a majority of at least 1,000. In Mattoon he had 419 majority, the largest ever given a candidate for any office. He even carries Cumberland, which gave the Democratic nominee at the late fall election a majority of 229.

By the election of Lehman the Illinois Senate will now stand: Republicans, 35; Democrats, 15; United Labor party, 1. The House is composed of 80 Republicans and 73 Democrats.

MISSOURI'S GOVERNOR ON OPTION TRADING. ST. LOUIS, Jan. 4.—The Legislature organized at Jefferson City Thursday by electing J. J. Russell Speaker and Ed Yates chief clerk of the House, and W. J. Johnston President pro tem, and H. L. Gray secretary of the Senate. Retiring Governor Morehouse sent in a long message treating wholly of State matters. He suggests the appointment of a bank examiner, and a labor bureau to arbitrate in labor troubles. He regards the enactment of dramatics demoralizing, but thinks the present laws, if properly enforced, sufficient for the State's welfare. He recommends that the Australian system of voting be adopted. The message is especially severe upon option trading and his words on this subject have caused a decided sensation here. They are taken as an official slap at the business methods of Governor-elect Francis, who has made \$1,000,000 in option trading. A bill to suppress option dealing is proposed, and it is thought that it will pass the Legislature with a rush.

GOV. THAYER'S SECOND TERM BEGINS. LINCOLN, Neb., Jan. 4.—Thursday at 3 o'clock Governor Thayer was inaugurated Governor of Nebraska to serve his second term. Governor Larrabee and staff of Iowa were present as the guests of the State. The inaugural address of the Governor dealt principally with the question of an honest ballot, urging legislation to guard against the use of the ballot box. The inaugural ball in the evening was one of the most brilliant social events of the year.

ELENSBURG, W. T. Jan. 4.—Seventy-five delegates attended the Statehood convention which convened here Thursday. Ex-Governor Watson C. Squire presided. A long petition was adopted praying Congress to admit Washington with the Idaho pan-handle annexed.

The annexed petition sets forth that the people in the Territory are fully prepared and willing to shoulder the responsibilities of Statehood, having a population of 240,000, a gain of 150,000 in eight years. An address to the people urging them to leave no stone unturned to obtain speedy admission was passed. Democrats and Republicans are alike anxious for the admission of the Territory under the name of Washington, which name the convention favored.

YANKTON, D. T., Jan. 4.—The Dakota Statehood Executive Committee met here Thursday and issued a call for a convention to be held at Huron January 16 to appoint a committee to labor with the present Congress for the immediate admission of South Dakota, and in event of its failure to secure action, to labor for an extra session of the next Congress.

INAUGURATED. BOSTON, Jan. 4.—Hon. Edwin C. Burleigh was inaugurated Governor of Maine, and Governor Oliver Ames, of Massachusetts, was inaugurated for a second term. Governor Ames in his annual message to the Legislature recommends the submission to popular vote of a proposition for a prohibitory amendment to the State constitution.

COLORED CATHOLICS. Proceedings of Their Convention at Washington—An Address to the Faithful.

WASHINGTON, Jan. 4.—At the meeting of the colored Catholic congress Thursday addresses were delivered and papers read by Archbishop Elder, Dr. Faust, G. B. Thompson, of South America, and Father Healy. Letters of regret were read from John Boyle O'Reilly, the Order of Catholic Knights of America and other bodies. The address to the people presented by the committee on Resolutions the growth of

Catholicity among the colored people is set forth. The address continues: "We warn our people against all secret societies condemned by the church, and hope they will join those benevolent societies which have the church's sanction. With regard to the union of Catholics, many of whom are Catholics, we trust that they will give an opportunity to our boys to become masters of the art of the pen. As the evil of intemperance is increasing at a fearful rate among our people we hope that they will do their best to keep those under their charge from all evil habits. Last and not least, we are praying the intelligence of many of our youth; we therefore hope that parents and guardians will place in the hands of their children books that will be useful and entertaining."

The address sets forth that there are twenty colored Catholic churches in the country, each having a school annexed, sixty-five colored Catholic schools, and eight orphan asylums and reformatories. The Catholic hospitals, etc., are open to both colored and white children. Over 5,000 children are taught in the colored schools and the asylums care for over 300. Seven colored students are preparing to follow the example of the single Catholic priest in the country, while over 150 colored women are consecrated sponsors of Christ.

Delegate Wood, of New York, offered an amendment incorporating in the address a protest against the exclusion of colored Catholics from the pews of white Catholics. This was disputed at great length and the address was finally referred back to the committee for revision. The delegates to the convention will call on the President by appointment this afternoon.

RECRUITING IN NEW YORK. Railroad Agent Securing Soldiers for the Russian War.

NEW YORK, Jan. 4.—A scheme by which General Legitime hopes to fill the ranks of his dispirited army with New Yorkers has been accidentally discovered. A number of reckless daredevils have already been enlisted and the money to pay for their transportation and wages is now being raised. At least \$150,000 will be needed for this purpose, and Legitime's agent in this city is making every effort to raise this amount. The United States Trust Company and several other trust companies have been asked for a loan of this amount, and it is said that they have consented to consider the application. It is probable that the loan will be obtained in a few days, as it is understood that the widow of a Haytian colonel, who has consented to give a bond for his payment.

ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUP should al-  
ways be used for children teething. It soothes  
the child, softens the gums, allays all pain  
from wind colic, and is the best remedy for  
diarrhoea. 25c a bottle.

We have a great line of handker-  
chiefs for our holiday sale.

ANCHIE REID.

For SALE—Wm. Cannon's residence,  
WHEELER & STEVENS.

There are 20 1/2 acres of land in the  
third ward, nearly one-half of which  
fronts on two good streets, and can be  
platted into 30 good lots, worth \$100 or  
\$250 each; the balance, first-class for  
small fruits or market gardenings, and all  
of which can be bought for \$1700. Good  
reasons for selling at this extremely low  
price. There is, in the investment, a  
certainty of a profit of "an hundred  
fold."

WORK OF THE COURTS.

THE DIAMOND ROBBERY CASE  
MAKES SLOW PROGRESS.

Walter E. Warner held to the bench  
Court for the morning of January 2nd.  
Two Dollar Check on J. B.  
Gordon, of Beloit.

C. E. Green's examination in the  
"diamond robbery" matter was taken  
up this morning, the municipal court be-  
ing filled to the doors with curious  
souls. During the morning four wit-  
nesses were on the stand. These were  
the complainant, Mrs. Dr. Butterfield;  
Miss Bertha Tyrer and the proprietors of  
the most market over which  
Mrs. Butterfield has her rooms. Mrs.  
Butterfield story was the only one  
which bore directly upon the  
stealing of the hand bag, the others  
being of a confirmatory nature.

Mrs. Butterfield swore that the de-  
fendant called on her Sunday evening,  
and was there from six until seven.  
Soon after he left she missed the hand  
bag, which had been on a stand in plain  
sight. The bag, according to her  
testimony and to that of Miss  
Tyrer, contained two hundred and fifty  
dollars in money, and a set of jewelry of  
unknown value.

Mrs. Butterfield was subjected to a  
searching cross-examination by Ogden  
H. Fether, attorney for the defendant,  
the examination being listened to with  
evident interest. The prosecution was  
conducted by Attorney W. G. Wheeler.  
Walter E. Warner, one of the Rock  
county agents of the Singer Sewing Ma-  
chine Co. is under arrest for forgery.  
New Year's night in Beloit he presented  
a check for \$1250 on J. B. Gordon to C. A.  
Still he is cashed, Mr. Still had done  
some business with Warner before this  
and accommodated him with the money.  
The next day when the check went into  
the Second National bank, the officials  
pronounced it a forgery and so notified  
Mr. Still, who upon inquiry of Mr.  
Gordon, was readily convinced that a  
crime had been committed, and put  
Marshall North on Warner's track. The  
hearing was before the police court yester-  
day afternoon. Warner had been  
working in the locality a few weeks, and  
had been on a protracted spree. He had  
\$14.30 in his possession, which was re-  
turned to Mr. Still. He waived exami-  
nation and his trial was set for the 14th  
in the municipal court.

—Yesterday Mr. F. O. Stillman re-  
ceived a barrel of choice Florida oranges,  
selects, the kind remembrance of our for-  
mer fellow townsman, John Dewey, who  
can now boast of a choice orange grove  
in the little town of Wisconsin, that state.  
The oranges are as choice a lot as have  
been seen in this city.

—The Milwaukee Sentinel: The jo-  
men are said to be fearful that, in con-  
sequence of the mildness of the season,  
they will not be able to lay in a stock of  
ice this winter. It is too early yet to  
warrant such anxiety. The ice crop is a  
remarkably sure crop in this latitude.  
Suddenly some day a blast of air direct  
from the north pole will bear down upon  
us, and ice sufficient to satisfy the most  
greedy demand will be produced in the  
course of a few hours.

—Yesterday Mr. Silas Haysman in-  
sured an agent, adjusted and settled the  
loss sustained by Geo. Parmley and sons by  
the burning of their tobacco on Decem-  
ber 19th last. The loss sustained on to-  
bacco was adjusted at \$3,826.17, and the  
insurance paid was \$2,869.63. The to-  
bacco shed was insured in the town com-  
pany, the amount of loss sustained by  
its burning and the insurance was not  
ascertained, as the loss has not yet been  
adjusted.

—Pearson's People's Theatre Company  
open at Lippin's Opera House next  
Monday evening in Uncle Dan's, or  
a Messenger from Jarvis Section. Admis-  
sion 10, 20 and 30 cents. The company  
is first class, and has been playing in all  
the larger western cities at regular  
prices, at 10, 20 and 30 cents admission.  
They should test the capacity of Lippin's  
Opera House every evening next  
week. Reserved seats are now on sale at  
Prentice & Eyverson's drugstore.

—Emerson found warm admirers at the  
Fort-nightly club last evening. The  
club met at the home of Mr. and Mrs.  
Ellis Shoppell in the second ward. The  
essay under discussion was "The Over-  
Soul," an outline of the essay being given  
by Miss May Henderson, while choice  
selections were presented by Miss Ida  
Fish, Miss Prichard and Miss Jessie In-  
man. After half the evening had been  
spent with Emerson the remainder of  
the time was devoted to social diversions  
of many kinds. The club, which has  
already proven itself a success, will meet  
on Thursday, January 17th, with the  
Misses Prichard on South Main street.

A POLO LEAGUE FORMED.

MILWAUKEE, RACINE AND CHICAGO ARE  
IN THE HARNES.

Somebody has been leading the Mil-  
waukee Sentinel astray on the matter of  
Janesville polo. As the town is now  
without a suitable rink its light will  
hardly shine again in polo circles. The  
Sentinel says:

"Local polo enthusiasts, encouraged  
by the interest awakened in the games at  
Farwell avenue armory on Christmas  
day, and the general awakening over the  
west, are taking active steps looking to  
the formation of a state league of clubs  
with an addition of a club  
from Chicago. A letter has been  
received from Janesville announcing the  
formation of a club there, and a  
willingness to join the league, and the  
projectors are now awaiting a reply from  
Oshkosh before making any definite  
move. The league will probably include  
the Milwaukee, the Oshkosh, the Janes-  
ville, the Racine and the new Chicago  
club. The Oshkosh are made up partly  
from old the Galesburg club, that achiev-  
ed a reputation some years ago. The Ra-  
cine have been in harness for some time  
and their matches in Racine have been  
very largely attended. In the East the  
sport is very firmly established, games  
taking place at out of town rinks and  
special teams being run from the cities.  
Most of the players there are profession-  
als and high salaried men.

The Milwaukee will this year num-  
ber the following players: Hoech, Van  
Vechten, Robinson, Somers, McGaw,  
Williams and Hall, and possibly French  
of the old Bay View. French will play  
when Somers cannot.

THE STRIKE DECLARED OFF.

DIFFERENCES IN THE DOUGLASSHOE FAC-  
TORY AMICABLY ADJUSTED.

BROCKTON, Dec. 10, 1888.—William L.  
Douglas and the Leathers' union have at  
last come to an understanding over the  
differences which have existed between the  
two for over a year, and they are  
amicably adjusted. This result was  
brought about this afternoon by a com-  
mittee of leaders, with Edward P. Brady  
as chairman. They called at Mr. Douglas's  
factory on Pleasant street, and after  
a long talk the strike was declared off.  
The terms of the agreement are:  
These: The leathers will agree in the fu-  
ture to leave all matters of dispute to the  
state board of arbitration when either  
side cannot agree. William Douglas  
agrees to hire all the union men for  
whom he has employment, but none of  
the leathers now at work shall be dis-  
charged unless their work is unsatisfac-  
tory to the foreman of the room. The  
union men will also be allowed to oper-  
ate the lasting machines in the factory,  
and the same prices as were paid before  
the strike will be paid.

She sat on the piano-stool with her  
hands tightly clasped, looking tragic and  
miserable—she could not sing a note. I  
gently suggested Dr. Bull's Cough Syrup.  
The next day she was singing and trill-  
ing like the first birds in the spring.  
Sensible girl!

THE WATER.

At seven o'clock this morning the  
thermometer indicated 16 degrees above  
zero. Partly cloudy with west wind.  
At one o'clock p. m. the register was  
33 degrees above zero. Clear with  
west wind. For the corre-  
sponding hours one year ago the  
register was 28 and 41 degrees above  
zero.

GOING OUT OF BUSINESS.

G. Ogswell & Co. are selling gentle-  
men's fine footware—hand and machine  
sewed calf, kangaroo, Dongola and pat-  
ent leather at cost. Now is the time to  
buy first class new, fresh goods for fu-  
ture as well as present needs.

When the blood is impure, thick, and  
sluggish, and this is an unimpaired  
there can be no health. With these  
conditions, all the functions of the body  
are impaired, and the result is a variety  
of dangerous complications. The best  
remedy is Ayer's Sarsaparilla.

A MODERN FAUST.

They sat 'neath a tree together,  
In the sunny garden of Kew,  
Mid the clods of the May-time weather,  
And the English air so blue.

From the clouds growing around them,  
With their faces turned to the sun,  
Mid the clods of the May-time weather,  
Then plucked the leaves from a tree.

What have you named your day?  
He asked with courteous voice:  
Answer, son, don't be afraid,  
Who is the girl of your choice?

His black eyes flashed upon her,  
"Why, what a question from you!"  
"Answer, son, don't be afraid,"  
And the daisy eyes looked up to him.

What do you think I have named it?  
He said in tenderest tone:  
"Can you guess the name of all others  
I should like to call my own?"

Her blue eyes looked down and dreamy  
And her cheeks grew soft and red;  
"I think you had better tell me,"  
She whispered with her drooping head.

"Well, if you will know," he answered,  
"Waiting for me here in the shade,  
'Tis that black-eyed girl from Boston  
I waited with twice last night!"

AMUSEMENTS.

CHARLES ERIN VERNER.

In regard to the attraction which will  
hold the opera house boards this even-  
ing, the following comments are made by  
the eastern press:

Mr. Verner is to-day the best Irish  
character actor on the stage, an author  
of considerable merit, and a vocalist of  
note.—*Louisville Commercial.*

Verner sends his audience away after  
lots of tears and smiles, hearty handclaps  
and boisterous plaudits, pleased and  
happy.—*St. Louis Critic.*

Mr. Verner is a good singer and dancer,  
and plays the careless, happy but brave  
Irish boy with spirit and effectiveness.—  
*St. Louis Post Dispatch.*

Mr. Verner is an easy, versatile im-  
personator of Irish character, possessing a  
fine manly presence, a sweet, clear tenor  
voice, and an off hand freedom of man-  
ner.—*Chicago Times.*

Mr. Verner brings to the role that  
fidelity and earnestness, which an actor  
with Irish blood in his veins can scarcely  
fail to reveal in impersonating such a  
part.—*Duluth Courier.*

A SILK TRUST.

Capitalists in Europe Adopting the Ameri-  
can Method with Rapidity.

LONDON, Jan. 4.—A syndicate in the  
silk trade, composed of the largest silk  
firms in this city and Lyons, France.

The formation of this silk syndicate  
shows the rapidity with which the Ameri-  
can system of trusts is commencing to  
the capitalists of Europe. With regard  
to this new trust it is said that its forma-  
tion was instigated by American hand-  
loom silk weavers, who organized the  
organization of a similar syndicate in  
the United States with the object of main-  
taining an international syndicate for the  
control of the silk trade. This view is  
generally considered to be the correct one,  
in the light of negotiations which have  
been in progress for some time among the  
manufacturers of the United States and  
France in England and America, for  
the purpose of increasing their profits  
and removing competition.

Outwitted by a Woman.

United States Marshal Springfield, with a  
 posse, pursued the house of George  
Mowery, an alleged "moonshiner" in Gil-  
mer County, a few days ago. The  
officers tried to force the door,
